-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE three MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

1. Claim 1 remains rejected under 35 U.S.C. 112, first and second paragraphs, for the reason stated below.

Applicant's amendment dated 03/07/03 failed to address at least the following:

- A. Although Applicant has provided new acceptable drawings, they are referred to in the specification as "Fig. 1", "Fig. 2", and "Fig. 3" although they are not labeled as such. With Applicant's permission, the Examiner would be willing to either label the figures appropriately or to change the specification to delete reference to "Fig." and substitute language such as --The first sheet--, etc.
- B. A new oath/declaration is required as explained in the first Office action.
- C. Although Applicant implies that asexual propagation occurred in McFarland, Ca., it is not explicitly stated. The location of asexual propagation must be set forth.

D. Although some of the color designations have been set forth, the following have not yet been addressed: The adaxial and abaxial leaf colors, cane coloration of old growth, cane coloration of new growth, lateral branch color, tendrils, flower bud, flower color, color of each of the sex organs such as anthers, stamen, stigma, style, and pollen, berry flesh color, peduncle color, immature leaf color, and bark striations.

E. Although some more description has been set forth in the specification, the following items have not yet been addressed: leaf length and width, tendril length, a description of the length of the flower bud, flowers and flower organs including shape and number of various organs and flower scent. Although Applicant has set forth that the flowers are perfect, no other information concerning the size of the petals, etc has been set forth. Additionally, the pedicel length, petiole length, length of berry with and without treatment, and the approximate internode length has not been adequately set forth. Since cold storage period is a distinguishing characteristic of the instant variety, this needs to be quantitatively set forth in the specification.

F. Applicant is again strongly urged to change the name of the plant to one that is not numerical in nature.

G. The abstract must not compare the invention to the prior art. A new abstract is required.

Conclusion

The claim is not allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
